

# Demis Roussos, This Song

You say we should find out  
what other songs there are to sing about.  
You leave no doubt, you want from me  
the key to start a new and different melody.  
Well if you find he's what you want,  
just keep in mind  
this song will always be our song.

Oh and this song  
can't keep us apart long,  
this song will always be our song,  
'cause this song's a stay in your heart song.  
This song, this song is our song.

Well you're the girl who needs  
the kind of love I have that will endure.  
Of this I'm sure  
even though it seems  
he may possess a universe or galaxy,  
with just my heart  
I'll rearrange his stars above  
and you love.

This song will always be our song.  
oh and this song  
can't keep us apart long.
