

Demon, Blackheath

Take a seat we've got it made
You're move to precision
We're all sold out of human rights
It's made your decision
Keep belief in avoiding wars
Keep faith with Santa Claus
Feel free the first time in you life
Give yourself away
Blackheath nothing goes on here
Blackheath nothing grows on here
Blackheath only children play
On your admission the ride is free
Whatever takes your fancy
It's time to change your life support
We've got the future bottled
One chance to go away from it all
What a way to go
No more fear from crazy toys
We got the answer
Blackheath nothing goes on here
Blackheath nothing grows on here
Blackheath only children play
If I believe in all I read
I'd be marching with them to the black lands
Of the living dead
Blackheath nothing goes on here
Blackheath nothing grows on here
Blackheath only children play
