

Dennis Lloyd, Oceansize

Heading for the coast
Driving down the freeway
Everything can go wrong but I know
I'm gonna catch a new wave

Oceanside, sunny skies
And every moment feels so right
Can't deny that life goes by
Why don't we stay like this forever?

When the sun burns low, tell me where you wanna go
Where you wanna go, go tonight
We can take it slow, tell me where you wanna go
Where you wanna go, go tonight

Where you wanna go, where you wanna go, go tonight
Where you wanna go, where you wanna go

Tryna feel the road
I'm rolling down a window
All I know is time is on our side
Anywhere that we go

Oceanside, sunny skies
And every moment feels so right
Can't deny that life goes by
Why don't we stay like this forever?

When the sun burns low, tell me where you wanna go
Where you wanna go, go tonight
We can take it slow, tell me where you wanna go
Where you wanna go, go tonight

Where you wanna go, where you wanna go, go tonight
Where you wanna go, where you wanna go

When the sun burns low
Tell me where you wanna go
Where you wanna go, go tonight
We can take it slow
Tell me where you wanna go
Where you wanna go, go tonight

Where you wanna go, where you wanna go, go tonight
Where you wanna go, where you wanna go
