Dennis Lloyd, Wild West

what if you feel like feel it like me

nobody knows how it feels to be like me nobody, girl

cause I feel like I'm losing my mind and I am losing control but you know that I love that and I feel like I am ready to give and I am readyt to love and you know that you want tat

I gave you my word and I showed you my world but you don't understand that I love that every minute you tried is a minute you lied and the minute you hide it baby

what if you feel like feel it like me
