

# Depeche Mode, Peace

Peace will come to me  
Peace will come to me

I'm leaving bitterness behind  
This time I'm cleaning up my mind  
There is no space for the regrets  
I will remember to forget

Just look at me  
I am walking of incoming  
Look at the frequencies of which I vibrate  
I'm going to light up the world

Peace will come to me  
Peace will come to me

I'm leaving anger in the past  
With all the shadows that it caused  
There is radar in my heart  
I should have trusted from the start

Just look at me  
I am a living act of holiness  
Giving all the positive virtues that I possess  
I'm going to light up the world

Peace will come to me  
Just wait and see  
Peace will come to me  
It's ment to be  
Peace will come to me  
Just wait and see  
Peace will come to me  
It's inevitability
