

Depswa, From The Inside

Without Warning,
Emotions Tide in like a Breaking Wave,
I can't remember yesterday,
I don't recall ever being this way before

[pre-Chorus:]
Cause i feel weak,
Like a Defenseless Animal,
Weak.
Though my Will is gone,
Weak.
As if i never really had any strength at all.

[Chorus:]
From the inside i could feel myself lost in memory with you,
From the inside i could feel myself Paralyzed,
From the inside i could feel a change coming over me with you,
From the inside i could feel myself spinning clarity with a memory of you.

Within a glimpse,
I can see my entire life,
Flash before my eyes,
Is this more than momentary thing.

[Pre Chorus]

[Chorus]

I'm Lifted To the Sky,
And I feel all my boundries falling away from me,
And I'm lifted to the sky,
As you bring out the better,
Better, Better part of me...

[Chorus]

From the Inside [x3]
