

# Depswa, Prom Song

They're more than just words  
They're colors  
To paint my feelings for you  
And I know how  
That there's no way to show you  
Just how much I care

And I feel it oh so deep within me  
And I know that there's so much left to share  
And all the times you're away  
Feels just like eternity  
As the moments that we had  
Had to end

The strokes of the brush  
Brings me closer to your touch  
Through the hues we'll find a way  
To follow, I know we will

And the colors are so vibrant  
Like the sun on the ocean  
And the hues  
They will change from day to day  
But I know that  
That the picture of love would last forever  
On this canvas of our lives that we create  
(And our love will last forever)  
(And our love will last forever)

And I know that always  
I saw to try to display  
Just how precious that you are to the world  
Cause I know with just a touch  
You can show me oh so much  
That there's more to this life  
Than what we see

Every stroke of the brush  
Brings me closer to your touch  
Through the hues we'll find a way  
To follow, I know we will

And the colors are so vibrant  
Like the sun on the ocean  
And the hues  
They will change from day to day  
But I know that  
That the picture of love would last forever  
On this canvas of our lives that we create  
(And our love will last forever)  
(And our love will last forever)

Colors may fade  
Turning vibrant to gray  
But one thing's unchanged  
The picture is still the same

And through the days and nights  
The vision lives on forever  
And through a masterpiece of love we made together  
We've given all we can  
I know the world will understand  
The picture is of you and me

And the colors are so vibrant  
Like the sun on the ocean  
And the hues  
They will change from day to day  
But I know that  
That the picture of love would last forever  
On this canvas of our lives that we create  
(And our love will last forever)  
(And our love will last forever)

And the hues  
They will change from day to day  
But I know that  
That the picture of love would last forever  
On this canvas of our lives that we create  
(And our love will last forever)  
(And our love will last forever)
