

Depswa, The Path

And I know I've been so far away
And I know all the hardships that it makes
And I wish that I could change our destiny
But my heart has the only yes that see
And I know that things used to be easier
And I know that sometimes life is hard
And I wish that things could be much better
On this path along the road until it's over

[Chorus:]

Now let me find my way
Let me find the answers to these dreams
Now let me go my way
And bring about an end to bitter things

And I feel that me heart
Has been torn in to
One half's alone while the other is always with you two
And I know that things used to be easier
And I know that sometimes life is hard
And I wish that things could be much better
On this path along the road until it's over

[Chorus]

And it's alright
We've got to find ourselves some way
And here tonight
We've got to go our separate ways
You hearts
Your smiles
And I miss them all the while
And I know that someday I'll be there
But right now I can't be

[Chorus]

Now let me go my way [x3]
And bring about an end to bitter things
