

# Dermot Kennedy, Lucky

(Dum-dum, dum-dum)

(Dum-dum, dum-dum)

If you're so lucky that she lets you know her heart  
Be careful how you hold it  
If you're so worried that the afterlife is dark  
Then make sure that she knows this  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved

Least I can always say that I told her  
How the only thing I know is how to hold her  
Long as I can feel her head upon my shoulder  
Well, I'd never feel the nights getting colder

I can't relate to having a heart like that  
All your wonder and your trust intact  
I put the phone down and you call right back  
Put all my pieces back  
If I deserve it or not

Let me tell you how the sun rose  
How my heart dipped  
How her eyes were all full up  
Love can leave you down a dirt road  
With a burst lip  
And your pride all cut up  
Let me tell you that it's worth it  
So protect it  
I know it hurt you so much  
But you know that I respect it  
You were tested  
And I saw how you stood up

If you're so lucky that she lets you know her heart  
Be careful how you hold it  
If you're so worried that the afterlife is dark  
Then make sure that she knows this  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved

Dum-dum, dum-dum (We can make it, have some heart)

Dum-dum, dum-dum (I get emotional about it, I'm about to cry 'cause I care about ya'll)

I can't relate to having a heart like that  
All your wonder and your trust intact  
I put the phone down and you call right back  
Put all my pieces back  
If I deserve it or not

Let me tell you how the sun rose  
How my heart dipped  
How her eyes were all full up  
Love can leave you down a dirt road  
With a burst lip  
And your pride all cut up  
Let me tell you that it's worth it  
So protect it  
I know it hurt you so much  
But you know that I respect it  
You were tested  
And I saw how you stood up

If you're so lucky that she lets you know her heart

Be careful how you hold it  
If you're so worried that the afterlife is dark  
Then make sure that she knows this  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved

Let me tell you 'bout a good soul  
How my heart skipped  
How I could have died that summer  
Love can leave you down a dirt road  
Till you curse it  
Still your god wouldn't pull up  
Don't we know that nothing's perfect?  
We accept it  
Love is flawed just like all us  
Every little thing the sun shows  
Well, it's worth it  
All the scars that you suffered

If you're so lucky that she lets you know her heart  
Be careful how you hold it  
If you're so worried that the afterlife is dark  
Then make sure that she knows this  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved  
She is loved, she is loved, she is loved
