What's your sign?
Do you know?
Let me guess, your Scorpio,
what's your ascendant
where's your moon
Scorpios are pretty cool
See I'm ...(Wort fr Schtze) , so they say
I'm a butterfly. I like to play.
I'm always aiming, into the sky
I fling my arrows extremely high

with a supernatural or devin
belive or not if your so inclined
coz', in this great big universe
We're the stars on earth
See the man over there
he's a Leo, check his hair

When the night is good and clear
I hear a whisper in my ear
"if you follow the northern star,
you will always know just where you are"
