

Destroy!, Sword Of Damocles

Media fills our eyes and ears
With vision of violent streets
Surely the decline of the family
Has lead to a decay of society
But these family values
Are values of dysfunction
The most violent place in America
Is inside the home
Children molested and abused
Spouses beaten and raped
Where can you run or hide
When the killing fields are your home
Blackened eyes and broken teeth
Still return for more
Vicious circle of dependancy
Will it end in death?
