

Destroy!, War Without Mercy

Theories of Mitchell and Douhet
AAF to vindicate
Strategic bombardment
Shall obliterate

Unseen enemy
Another culture a different race
Raining death above
Never see a human face

War- With no mercy
War- With no mercy

Home islands cities all to raze
One by one set ablaze
Tokyo consumed by fire
As falls the sun god's empire

Rising sun is falling down
Cities burnt to the ground
Commerce raining in the seas
This is with no mercy

Racist propaganda
Inflames war hysteria
Modern war's full fury unleashed
Power of the atom bomb released
Nagasaki, Hiroshima, August '45
Two cities levelled
Tens of thousands die

(This song takes its name from a book
examining the racist nature of America's war on Japan 1941-45)
