

# Destroy!, Yuppie Beware

When yuppie scum  
Come to town  
Building their townhouses  
You gotta burn them down  
This city is ours we already live here  
You raise up the rent drive up the price of beer  
Yuppies don't like the sight of me  
They call their slaves the police  
I outran your fat servants  
For the second time this week  
I hope you like punk rock  
Better hide your car  
There's a party on your block  
The suburbs are for you  
Stay the fuck out there  
Wanna gentrify my neighborhood  
Yuppie beware
