

# dEUS, Suds & Soda

Friday (x159 throughout the entire song)

Your head come on is dead and gone  
it might as well be said so long  
It's suds and soda, a brain decoder  
and can I wait for my decoder

Get off get up you son of pop  
the light below is bright on top  
It's suds and soda, a smile decoder  
and can I get yeah what I ordered?

And there's always something in the air  
but sometimes,  
suds & soda mix OK with beer  
can I  
can I break your sentiment?

Oohhh, You're just a monument  
Can't see no precedent  
That's when the shit hit the fan...

Jimmy Dean is howling ween  
like kerosene for dee dee scene  
It's suds and soda, a brain decoder  
and can I skip this thing I ordered

Get off get up you son of pop  
the light below is bright on top  
It's suds and soda, a vibe decoder  
and can I get yeah what I ordered?

And there's always something in the air  
but sometimes,  
suds & soda mix OK with beer  
can I  
can I break your sentiment?

Oohhh, You're just a monument  
Can't see no precedent  
That's when the shit hit the fan...

So beat the paradox (4x)

And there's always something in the air

Your face come on is dead and gone  
it might as well be said so long  
It's suds and soda, a brain decoder  
and can I wait for my devoter

Get off get up you son of pop  
the light below is bright on top  
It's suds and soda, a smile decoder  
and can I skip yeah what I ordered?  
and can I break your sentiment

So can I break your sentiment (x11)

Friday, Friday
