

# dEUS, When She Comes Down

Fanfare, I'm bringing the news  
Time sticks like a bottle of glue  
Lots of trouble is travelling through  
Will you come tonight

New home, looks like a dream  
Bite in you like a fresh tangerine  
It's narcotic, a little bit mean  
No pleasure is denied

Suicide soul

Tip toe in the valley of doom  
Inhale the rock'n'roll fumes  
Like a bee without a zoom  
Wandering through the mist

Heaven's there for all to see  
Eternity for a minute or three  
Oh I just forgot what to be  
So tell me what it is

Suicide soul

When she comes down the lights all fade  
And so do we into a state ever after  
It's time to revel and celebrate  
What brings and keeps us here

Give it up for the wall and the nerve  
Take it down for the cause they serve  
Around the bush and around the curve  
I'm crawling back to you

I can't stop cause it never began  
My mind keeps on repeating this twang  
Like a song that somebody sang  
Now sing me something new

Suicide soul

When she comes down the lights all fade  
And so do we in a state ever after  
It's time to revel and celebrate  
What brings and keeps us here

When she comes down we duplicate  
Our mirrored gazes lazy from laughter  
It's time to revel and celebrate  
What brings and keeps us here
