

Dev, Kids

You try to talk, but I'm already gone
You wanna sip the drinks already done
Phone is off, I'm already gone, gone
All I wanna do is dance
I keep moving and moving, this bitch perceived me
I think I've been staring there on their rear view
I am no target going back to the bad
Bad girls and the bad boys let me hear you say

All I wanna do is get down tonight,
I'm on that shit that I know you like
Don't judge me 'cause I'm about this life
The kids gonna be alright
/2x

We always did it, I wanna celebrate and misbehave,
Fuck around down town and act like nothing
Waiting all around for anyone to say they love us
To kiss us and hug us, and come undone
Day is dead, but night is young,
I get in my car and go back to the tick
Bad girls and the bad boys let me hear you scream!

All I wanna do is get down tonight,
I'm on that shit that I know you like
Don't judge me 'cause I'm about this life
The kids gonna be alright
/2x

Bet you, bet you wanna do it like this this
Like, like you wanna do it like this this
All I wanna do is
All, all, all I wanna do it get down, get down tonight
Get down, get down tonight
Get down, get down tonight

All I wanna do is get down tonight,
I'm on that shit that I know you like
Don't judge me 'cause I'm about this life
The kids gonna be alright
/2x

Bet you wanna do it like this this
You like it when I do it like this this
All I wanna do is this! /4x
