

# Devendra Banhart, Long Song

Long song with words of all kinds  
Song sung it sparkles and shines  
You paint the pools that lye on their backs  
Skip a stone and spit pass the cracks  
Blue song sung loose on my knees  
The wind sing for horseflies and bees  
Well who knows, explain  
Who knows, explain  
The sea song besides your eyes fine  
Your eyes note of colors and lines  
The sad song as the weather hold hands  
The love song stood loose but it stands  
The movers moved away  
The song sung let it stay  
The sea song besides your eyes fine  
Your eyes note of colors and lines  
The sad song as the weather held hands  
The love song stood loose but it stands  
The movers moved away  
The song sung let it stay  
Well who knows, explain
