

# Devlin, Watchtower (Ft. Ed Sheeran)

There must be some way out of here  
Said the joker to the thief  
There's too much confusion here  
mmm I can't get no relief

Yeah I see..on my left..upon my right  
define me in the middle with the..  
before my name is starting tripping in the..  
for I?m..showing signs who the tributes in..  
in the pitch black is fill you cold the moon alone  
take me back to the roads..the rooms  
took the hair with no..  
take the cab to my mother's house  
tell my brother I love him  
and give me something I would see him through the hard times  
what's the bubble for  
when I?m sick of this life I've seen  
it has to be my family you lift me up the floor  
makes..the madness in a world full of money  
I was a prime..say you're..for the one tripping

And all alone the watchtower  
it says kept the view  
why all the came the first 72  
I found in the whole distance  
a wild  
too wild is world approaching  
and the wind it gets out

Poor more blood in your cup  
take a seat for the..you taste spot saving the boss  
the flavor of a new man of nature  
the linger is on..of us  
tryin to find for the..  
was someone ever know the..  
I don't think I'll never win  
when I die I hope the lovers at my side  
there's no trap door the eye closed  
and see and see yours  
I think that will be the by the same source  
someone else someone alive  
apart from the facts that my life  
and now I'm trapped in it  
and now I feel in a few years..  
do I have a couple kids and just forget I have a road

And all alone the watchtower  
it says kept the view  
why all the came the first 72  
I found in the whole distance  
a wild..  
too wild is world approaching  
and the wind it gets out

Take away the treasure of a man  
convinced I ain't in his homes  
..so malefic, superstitious  
maybe the reason promised land  
but while I make you or not a different mountain  
I've been a joker, I've been a thief, I've been a rapper  
I'll be the only enemy that I could never be  
give me a piece of mind

And all alone the watchtower

it says kept the view  
why all the..came the first 72  
I found in the whole distance  
a wild..  
too wild is world approaching  
and the wind it gets out
