

Devo, Gut Feeling/Slap Your Mammy

something about the way you taste
makes me want to clear my throat
there's a message to your movements
I looked for sniffy linings
that really gets my goat
but you're rotten to the core
i've had just about all I can take
you know I can't take it no more
got a gut feeling
on your ability to torment
centered 'round long time ago

and stripped away my garment
then you took your tongs of love
slap your mammy down

got a gut feeling
oh move it up and down now
oh move it all around nowslap your pappy down again
