

DI-RECT, Free (To Change The World)

Don't wanna know the answers
Why you don't know where to go
I don't wanna know the reasons
Why you don't know where you are
Makin' it real, and
Makin' it last
I just wanna feel...
Free, free to change the world, i'm flying
i'm free, free to change the world
If the sky above is fallin'
And sun is on the wing
You could hear the angels calling
You could even hear'em sing
If the time feels right
Gotta loose the brakes
Cause it's all about decisions
That only you can take
Makin' it real, and
Makin' it last
It's time to reveal
We'll get us there...
I'm free, free to change the world, i'm flying
I'm free, free to change the world
If the world is all against you
And you've got an aching heart
You can fear the devil's eyes
But you can also play his part
Now the time seems right
Gotta loose the brakes
Cause it's all about the future
That only you can make
Makin' it real, and
Makin' it last
It's time to reveal
We'll get us there...
I'm free, free to change the world, i'm flying
I'm free, free to change the world
Free, free to change the world
I'm free, free to change the world
Free, i'm free, free to change the world
I'm free, free to change the world
I'm free, free to change the world, i'm flying
(repeat 3x)
Free to change the world
