

# DI-RECT, Freerider (Mix)

You're one knocked down, You wanna get down  
here with your board, feeling great and touching the sky  
making some speed and searching for a rape  
who takes you in the end to the sky, and make tricks while you fly  
so you can feel the adrenaline  
hey boy, what are we waiting for  
all we need is a parade  
hey boy, still on the floor  
all we need is celebrate  
well, seeing is believing, that's one thing you got to understand  
while you make your tricks on your deck  
you got to believe in a god who helps you to the sky  
with your body, you're gonna fly so high  
and you could beat me one more time  
so now you're flying with your feet on your deck  
but you gotta make sure that you won't break your neck  
everybody's looking at his tricks in the sky  
but you don't even know how it is to die  
and now you're gonna down, you're making that smack  
you break every bone in your body, you bet!  
you think this easy flight, what a bad idea 'cause  
now you're falling and you're having some fear  
it's a nice afternoon, the sun is shining  
and you're going to your favourite sport to skate  
you're gonna make the best trick ever  
in your whole damn life  
but you fall and you feel the pain  
streaming thought  
your whole nice body!!  
hey boy, what are you waiting for?  
all we need is a parade  
hey boy, still on the floor  
all we need is celebrate  
and now you're gone down, you're making that smack  
and you break every bone in your body, you bet!  
counter in the X  
counter in white  
don't know what I'm doing in this hospital bed  
everybody's looking at your tricks in the sky  
but you don't even know how it is to die!  
hey boy, what are we waiting for?  
all we need is celebrate  
hey boy just still on the floor  
yeah yeah yeah yeah yeah yeah yeah
