

Diamond Head, Feels Good

Tell momma about the things you do babe
Tell papa how you like to live life for yourself
Tell the world when the thrill is new
that you make me feel good
Feel Good
Small kiss and I fall right under
This veil of a stolen love yeah
Natural woman is what you are
Born to make me feel good
Feel good
Come on baby tell us
Come on if it feels like love
Come on baby tell us
Come on if it feels like love
You, you make feel good
You, you make feel good
You, you make feel good
And if feels good baby come on
And if feels good baby come on
I tell the world when its got to be said
One woman is all you needed
Natural thrill is what it is when she's born to understand
She makes me feel good
Make me feel good
Come on baby tell us
Come on if it feels like love its true
Come on baby tell us
Do you make me feel good, in the morning
You, you make feel good
You, you make feel good
You, you make feel good
You, you make feel good
You, you make feel good
You, you make feel good
You, you make feel good
And if feels good baby come on
And if feels good baby come on
Feel good
Feel good
Do you make me
Do you make me
Feel good
Feel good
Do you make me
Do you make me
Feel good
Feel good
