

Diamond Rio, Walkin' Away (Song)

Sometimes a careless word just rolls right off my tongue
Now matter what I do it leaves you all undone
Hey baby no need to go crazy over some little something Ive said
Cant you see youre the keeper of my heart
Even when I lose my head

Weve still got it good no matter how bad it gets
Even after all this time the slipper still fits
Hey just look at how far weve come by choosing to stay
Baby dont go there love dont get nowhere walkin away

Sometimes the whisper of love gets lost in the angry shout
Even hearts that are in this deep might think about an easy way out
One honest touch makes those worries just fade like stars at dawn
These occasional moments of weakness
Only makes our love more strong

Weve still got it good no matter how bad it gets
Even after all this time the slipper still fits
Hey just look at how far weve come by choosing to stay
Baby dont go there love dont get nowhere walkin away

It gets easier all the time
Oh and harder and harder to leave behind

Weve still got it good no matter how bad it gets
Even after all this time the slipper still fits
Hey just look at how far weve come by choosing to stay
Baby dont go there love dont get nowhere walkin away
Baby dont go there love dont get nowhere walkin away
