Diamond Rio, Walkin' Away (Song)

Sometimes a careless word just rolls right off my tongue Now matter what I do it leaves you all undone Hey baby no need to go crazy over some little something Ive said Cant you see youre the keeper of my heart Even when I lose my head

Weve still got it good no matter how bad it gets Even after all this time the slipper still fits Hey just look at how far weve come by choosing to stay Baby dont go there love dont get nowhere walkin away

Sometimes the whisper of love gets lost in the angry shout Even hearts that are in this deep might think about an easy way out One honest touch makes those worries just fade like stars at dawn These occasional moments of weakness Only makes our love more strong

Weve still got it good no matter how bad it gets Even after all this time the slipper still fits Hey just look at how far weve come by choosing to stay Baby dont go there love dont get nowhere walkin away

It gets easier all the time Oh and harder and harder to leave behind

Weve still got it good no matter how bad it gets Even after all this time the slipper still fits Hey just look at how far weve come by choosing to stay Baby dont go there love dont get nowhere walkin away Baby dont go there love dont get nowhere walkin away
