

Diana Krall, I'll Make It Up As I Go

Remember back
To the days
When every hour
Was spent a different way
Whatever comes next
There's no way to know
I'll make it up as I go

Through the years
Back and forth
Of wearing every night before
I never was one
For taking it slow
I'll make it up as I go

Don't count me out
Because I know I can
Take all that's broken
And put it back together again

There just isn't a plan
There's just no way to know
For once in my life
I'm setting my sights
To make it up as I go

And put it back together again
There just isn't a plan
There's just no way to know
For once in my life
I'm setting my sights
To make it up as I go

Whatever comes next
There's no way to know
I'll make it up as I go
As I go
I'll make it up as I go
