

Diana Ross, Girls

(D. Ross/R. Chew)

Girls you are passion
With your every more
You set the fashion
Mirrors make you invisible
Magic in a vision
So tear down the walls
Get into action
Isn't it time you
Were the main attraction

You want to taste the fast life
And fall in love through the camera's eye

Girls show the world that you believe
Girls show the world you really care
Girls show the world that you belong
Girls show the world a miracle

You want to be that girl
The best in all the world
Next month's cover girl

You are passion
With your every move
You set the fashion
So tear down the walls
Get into action
Isn't it time you
Were the main attraction

You want to taste the fast life
And fall in love through the camera's eye

Girls show the world that you believe
Girls show the world you really care
Girls show the world that you belong
Girls show the world a miracle
