

# Diana Ross, Keep On (Dancin')

(N. Rodgers/G. Smith)

Dancin', dancin'

Keep on dancing  
So you don't have to feel the pain  
Keep on, keep on, keep on dancing  
So you don't have to feel the pain

Fate has dealt you a losing hand  
Ever since the day that your life began  
Wish you had some stronger ties  
There's no one around to hear you cry  
Move on up now, don't you see  
Stop pretending you need a quick release  
In the nighttime, in the rain  
Like a moth drawn to the flame

Keep on dancing  
So you don't have to feel the pain  
Keep on, keep on, keep on dancing  
So you don't have to feel the pain

Some people think they have everything  
But they're living in emotional poverty  
They use their fronts making deals oh, mighty sharp  
There's no love and they're bankrupt in the heart  
Sky above and earth below  
You can't hide, there's no place you can go  
From yourself you can't run  
When truth hurts it's not much fun

Keep on dancing  
So you don't have to feel the pain  
Keep on, keep on, keep on dancing  
So you don't have to feel the pain

Keep on dancing  
So you don't have to feel the pain  
Keep on, keep on, keep on dancing  
So you don't have to feel the pain

Dancin', dancin', dancin'  
Dancin'  
Keep on  
Keep on  
Dancin'

Sky above and earth below  
You can't hide, there's no place you can go  
From yourself you can't run  
When truth hurts it's not much fun

Keep on dancing  
So you don't have to feel the pain  
Keep on, keep on, keep on dancing  
So you don't have to feel the pain
