

# Diana Ross, Oh Teacher

(B. Gibb/R. Gibb/M. Gibb)

Every season of my life  
People say it, she go far  
I exceeded what as needed  
Don't you wanna know what I came here for

Turn the lights way down  
I will find you somewhere in the dark  
I'm lying with you, you're lying with me  
I wanna show you what I know so far

By doing it right  
I'm working on my design  
I'm making love with a friend of mine  
I wanna do it, I'll get you through it  
There's nothing to it  
You won't be leaving me without a star

Oh teacher, you get the test of my love  
No matter what you learn  
Oh teacher you got the best time, the last time  
But this time you're gonna get burned  
Oh teacher, you made me study all night  
After the end of term  
Oh teacher, you've got the first time, the last time  
But this time you're gonna get burned

Walk, think, act  
As the book to you defines  
Reach out for the one you love  
It may be someone you left behind

You're the reason that I breathe  
You're the savior of my nights  
Did I leave you without a lover  
But I'll never let you out of sight

You're gonna be mine  
I've got a wider range  
We keep the system but the rules may change  
My lips are wetter, I do it better  
And if you let me I will help you grow  
Baby, don't say no

Oh teacher, you get the test of my love  
No matter what you learn  
Oh teacher, you've got the best time, the last time  
But this time you're gonna get burned  
Oh teacher, you made me study all night  
After the end of term  
Oh teacher, you've got the first time, the last time  
But this time you're gonna get burned

Talk, move, smile  
Do it right  
We know the way  
Watch out for the danger lies  
In any game that you wanna play  
In any game

Oh teacher, you get the test of my love  
No matter what you learn  
Oh teacher, you've got the best time, the last time

But this time you're gonna get burned  
Oh teacher, you made me study all night  
After the end of term  
Oh teacher, you've got the first time, the last time  
But this time you're gonna get burned
