

Diana Ross, Oh Teacher

(B. Gibb/R. Gibb/M. Gibb)

Every season of my life
People say it, she go far
I exceeded what as needed
Don't you wanna know what I came here for

Turn the lights way down
I will find you somewhere in the dark
I'm lying with you, you're lying with me
I wanna to show you what I know so far

By doing it right
I'm working on my design
I'm making love with a friend of mine
I wanna do it, I'll get you through it
There's nothing to it
You won't be leaving me without a star

Oh teacher, you get the test of my love
No matter what you learn
Oh teacher you got the best time, the last time
But this time you're gonna get burned
Oh teacher, you made me study all night
After the end of term
Oh teacher, you've got the first time, the last time
But this time you're gonna get burned

Walk, think, act
As the book to you defines
Reach out for the one you love
It may be someone you left behind

You're the reason that I breathe
You're the savior of my nights
Did I leave you without a lover
But I'll never let you out of sight

You're gonna be mine
I've got a wider range
We keep the system but the rules may change
My lips are wetter, I do it better
And if you let me I will help you grow
Baby, don't say no

Oh teacher, you get the test of my love
No matter what you learn
Oh teacher, you've got the best time, the last time
But this time you're gonna get burned
Oh teacher, you made me study all night
After the end of term
Oh teacher, you've got the first time, the last time
But this time you're gonna get burned

Talk, move, smile
Do it right
We know the way
Watch out for the danger lies
In any game that you wanna play
In any game

Oh teacher, you get the test of my love
No matter what you learn
Oh teacher, you've got the best time, the last time

But this time you're gonna get burned
Oh teacher, you made me study all night
After the end of term
Oh teacher, you've got the first time, the last time
But this time you're gonna get burned
