

Diana Ross, The Music In The Mirror

To give me the chance
To look forward to say
Hey, listen, they're playing my song

Play me the music
Give me the chance to come through
All I ever wanted was the music and the chance to sing for you

Let me have something to live for
Let me be all that I dare
Reach out and touch
Touch me in the morning
Reach out and I'll be there

Play me the music
Play me the music
Give me the chance to come through
All I ever wanted was the music and the chance to say
I did

Give me the chance to come through
All I ever wanted was the music and the chance...
