

# Diana Ross, When You Dream

Just close your eyes  
And slowly drift away  
Call the stars down from the skies  
It's the end of another day

Let your spirits fly  
Into this magic night  
You should be fast asleep  
Bathed in golden light

It's late at night  
I watch you sleep  
Holding you tight  
My love will protect and keep you strong  
All night long

Dreams are for dreamers  
Who somehow lost their way  
Once you find the secret  
There's no need to be afraid  
And tell the bad dreams to just go away

Dreams are like rainbows  
Just follow where they lead  
In your dreams you found the lock  
In your prayers you'll find the key

My love will guide you  
High above the stars  
In dreams you can do many wonderful things  
Even find out who you are

When you dream I'll be there  
Just picture me in your mind  
When you're scared  
I'll take care of you

When you dream I'll be there  
If you need someone to hold  
Hold on to me  
That's all you have to do  
To make your dreams come true

Dreams can be magic  
If the truth is what you seek  
Open up your heart  
And you'll be forever free  
When you dream

And tell the bad dreams  
To just go away...
