

# Diana Ross, You Got It

(Jerry Ragovoy/Linda Laurie)

Warmer than sunshine, baby  
Sweeter than tears  
That's how my life has been  
Since you first appeared  
You opened up my heart  
To everything fine  
You put a light inside me  
And you made me shine

From the time I met you everything came true  
All I ever dreamed  
I found in you

Ooh, you got it  
There's no way  
I'm gonna live without it  
Nothin' can stop it  
I'm all yours  
'Cause baby you got it all

You keep me movin' baby  
To the beat of your drum  
I love what you're doin'  
And where you're comin' from  
And when you hold me baby  
It's like we are one  
'Cause you got a motion  
That gets me all undone

When you took my life and turned it all around  
Ooh, you got me flying  
Don't take me down

Ooh, you got it  
There's no way  
I'm gonna live without it  
Nothin' can stop it  
I'm all yours  
'Cause baby you got it all

You know I can't control  
For what I feel in my soul  
My heart is full of you  
All I wanna do is to love you  
Love you the rest of my life

Keep it comin'  
Don't stop now  
Spread your love around me  
Do it now, do it now

Ooh, you got it  
There's no way  
I'm gonna live without it  
Nothin' can stop it  
I'm all yours  
'Cause baby you got it all

Ooh, you got it  
There's no way  
I'm gonna live without it  
Nothin' can stop it

I'm all yours  
'Cause baby you got it all

Ooh, you got it
