

# Diane Birch, Nothing But A Miracle

Gettin tired of living  
Living for a moment  
Gettin tired of hanging on the line  
Wake up every morning  
And I pull back the curtain  
Wonder if it's gonna rain or shine  
Gettin tired of thinking  
Gettin so tired of begging  
Gettin tired of forgetting  
That there's two of us  
I'm getting so tired of loving a man  
that just don't give a damn  
Just tell me  
Tell baby why I'm holding on  
When your lovin's long gone  
I got a good mind  
So, why don't you tell me why  
I can't say goodbye  
Just tell me baby, why I've been holding on  
For so long  
And nothing but a miracle is gonna bring ya back  
Bring ya back to me now  
I gotta get myself together  
Gotta stop telling myself that I can do no better  
Gotta go out and maybe start meeting some new people  
I gotta go out and buy myself one of those little black dresses  
Cause I'm so tired of this t-shirt  
I'm so tired of cryin off all my make-up  
Gettin just so tired of waking up  
With a lonely heart  
I'm getting so tired of giving a damn  
About an absent hearted man  
Just tell me  
Tell baby why I'm holding on  
When your love is long gone  
I got a good mind  
So, why don't you tell me why  
I can't say goodbye  
Just tell me baby why I've been holding on  
For so long  
And nothin but a miracle is going to bring it back  
Bring you back to me now  
Oh, I can see it  
(Coming down the shadows)  
Coming down the shadows  
I can see it  
It's coming through  
It's coming through the windows  
Oh, I can see it  
(Coming down the ceiling)  
I can see it coming down the ceiling  
I Can't escape it  
(Can't escape the feeling)  
I can't escape it  
Can't escape the feeling  
Tell me, yeah  
Why I'm holding on  
When your love is long gone  
I got a good mind  
So, why don't you tell me why  
I can't say goodbye  
Just tell me baby why I've been holding on  
For so long  
And nothing but a miracle is gonna to bring it back

Bring ya back to me now  
Oh, nothing but a miracle  
Is gonna bring you back to me now
