

Diane Cluck, Hold Together (Let Go If You Will)

Document slow-mo collision
Note how it won't happen before its time
Continents shift so wide
They drift until they crash on this world's other side

Hold together
Let go if you will
Hold together
Let go if you will

Leave comfort now
And housing and undressing
Go forth with no blessing
Blessed by no one
Leave at night
With no light to guide you
Pay once you decide to
You'll find its fun

Hold together
Let go if you will
Center myself
Hold together
Let go if you will
Pull my face off
Hold together
Let go if you will
Keep on dancing
Hold together
Let go if you will
See, see whats, see whats left

I want walk out, stand, stay here (here)
Walk two, three steps and stop here (here, here)
And now and now and now and now and now

Hold together
Let go if you will
Hold together
Let go if you will
Hold together
Let go if you will
Nothing cares if you hold together
So let go if you will
See, see whats, see whats left
See, see what, see whats left
