

Diane Cluck, Reveller

I ain't sure that i ain't been a reveller before
cos' when i sway i sway like i know how
i danced myself into the middle of the road
but something else removing me now
something else gone up in my head
something else directing my feet
something else caressing me now
taking me out neck is so sweet
i ain't sure that i ain't been a reveller before
cos' when i sway i sway like i know how
i danced myself into the middle of the road
but something else removing me now
something else come up in my head
something else directing my feet
something else caressing me now
taking me out neck is so sweet
