

# Dianne Reeves, You Taught My Heart To Sing

We meet and it begins  
The sound of violins  
The song of birds high on the wing  
You taught my heart to sing

Why does this heart of mine  
Feel like a valentine  
You smiled and suddenly it's spring  
You taught my heart to sing

My heart was an empty shell  
Then you came along  
Now my heart's a carousel  
Filled with song

The miracle of you  
Will last my whole life through  
You're all I'll keep remembering  
You taught my heart to sing

My heart was an empty shell  
Then you came along  
Now my heart's a carousel  
Filled with song

The miracle of you  
Will last my whole life through  
You're all I'll keep remembering  
You taught my heart to sing

Oh la la la la la la la

You taught my heart  
You taught my heart to sing  
You taught my heart to sing
