

Diary Of Dreams, Butterfly Dance!

Is this your true world definition?
You cannot help, where your help is not wanted
You cannot escape from your reality
Give me more of your salvation

Hello? ..are you listening to me?
Hello? ..why don't you speak a word to me?

I tried to see you in my future
I tried to find you in my past

Let me feel your recognition
I can taste the way you look
I guess it was the right decision
My thoughts are my bible, that's by what I live

Hello? ..are you listening to me?
Hello? ..why don't you speak a word to me?

I tried to see you in my future
I tried to find you in my past

You live your life between these worlds
Color twists around your body
You and I got lost in rainbows
Our dreams were never made to last

Hello? ..are you listening to me?
Hello? ..why don't you speak a word to me?

I tried to see you in my future
I tried to find you in my past

I tried to see you in my future
I tried to find you in my past

I tried to see you in my future
I tried to find you in my past

I tried to see you in my future
I tried to find you in my past
