

Diary Of Dreams, Victimized

And have you seen
Through the curtain of my life ?
Get down to the rescue -
For my shelter - mental incest

Archaic disciples
Offer their support
But who to fuck am I to dare to accept ?

So take your victimized lies
Take your generous disguise
Sceptic privilege of mine
To the conquest of an angel
To the defeat of a beast
Glued to senses
Attached to all I need

And continuous monologues of insanity
Blood in floods
Rushing - longing
Urging to believe

Give me strength
Give me idols
Give my dreams a rest
Reality accepted,or not.....?
