

# Dickey Lee, Sleep Walkin' Blues

I just stepped in a puddle and I sank up to my neck  
I can't see the traffic light I'll get run over yet  
It cost me thirteen tokens to find my way back home  
By then you'd shut the water off and taken out my phone  
Since you've given me those sleep walkin' blues  
You've given me those sleep walkin' blues blues blues  
I don't know if I'll wake up from this dream of you  
You've given me those sleep walkin' blues

I shoot out my doormat in the middle of my bed  
My life is undernourished cause my heart is underfed  
My days are rambling nightmares my nights are even worse  
Cause I can't find a way to get myself back down to earth  
Since you've given me...

[ dobro ]

I put on Waylon Jennings but I could not hear a sound  
Yet all my neighbors yellin' turn that country music down  
I picked up my guitar to try to ease my mind  
But the notes stopped to my fingers and the words they would not rhyme  
Since you've given me...  
I don't know if I'll wake up from this dream of you  
You've given me those sleep walkin' blues
