

Diddy, Gotta Move On (feat. feat. Bryson Tiller)

She don't want it, she don't want it
She don't want it, she don't want it
Get in your bag, stay in your bag (She don't want it)
Get in your bag, stay in your bag (Yeah, yeah)

She don't want my love, I guess I gotta move on
Yeah, oh, yeah, oh, yeah
Oh, but she don't want my love, I guess I gotta move on
Oh, yeah, oh, no
If she don't want my love, I'm guessin' I gotta move on, I guess
I guess, I guess, I came a little too strong, I guess
She don't want my love, I guess I gotta move on, I guess
(Gotta move on) Yeah

I tried, I done tried to give it all to you, baby
Brand new Mercedes, a newborn baby, yeah
And I told you, you love too lazy, damn
All you had to do was love me, baby
Man, it gets so frustrating, yeah
Why you wanna go and test me, baby? Yeah
Degrade me and tell me I'm failing, yeah
Keep telling me things like

You done trying with me, done fighting with me, yeah
Gave you a ring that was going off the deep end, yeah
Oh, DeLeón, my drink for the weekend
Sent you some things, yeah, when I was done drinking like
Girl, he with you for the wrong reasons, 'cause you was with me
Uh, tell him stop reaching (Stop reaching)
Guess that's just the jealous in me
I'm salty, I need it, my wounds keep bleeding

You found a new man, so I gotta move on
Guess you got a new agenda with someone you barely know, I won't
Say you're wrong
Guess you had to move on
On, on, on, said she

If she don't want my love, I'm guessin' I gotta move on, I guess
I guess, I guess, I came a little too strong, I guess
She don't want my love, I guess I gotta move on, I guess
(Gotta move on)
I guess I gotta move on, I guess

We going up, we going live
Can't stop, won't stop, told y'all, uh
See me pull up, no problem (Wash it)
I can never, ever be no one option (Watch it)
Pull up on me but no blogs (Blogs)
Now you wanna say you wanna talk (Talk)
Now you wanna say you wanna talk (Talk)
Now you wanna say you wanna

Get in your bag, stay in your bag
Get in your bag, stay in your bag (Yeah)
Get in your bag, stay in your bag
(Ooh, yeah) Get in your bag, stay in your bag

Gotta move on
Find peace
Serenity
