

Die Happy, Bitter to Better

Peel off your onion skin
And forget about your discipline
Spin off this bitter pill
Leave this place where the sun never shines

I'll be your heroin(e)
If you promise that you try
If you promise that you'll cry
Instead of keeping it inside

Who do you see
When you look into the mirror
How do you feel
When you realize it's you
Where will you go
On the way from bitter to better
I wanna know, I wanna know

Don't be so scared of mistakes
Won't you try to take a brake
'Cause you're already perfect
You just don't see that yourself

You don't know who you are
If you don't try
You will never find your own personal style
You're already perfect

Yes, you are, you're almost perfect

Who do you see
When you look into the mirror
How do you feel
When you realize it's you
Where will you go
On the way from bitter to better
I wanna know, I wanna know

Who do you see
When you look into the mirror
How do you feel
When you realize it's you
Where will you go
On the way from bitter to better
I wanna know, I wanna know

Who do you see
How do you feel
Where will you go
On the way from bitter to better
I wanna know, I wanna know
