

Die Happy, If I Could Fly

I have been falling
Falling backwards
In slow motion
Going down

Nothing is changing
But the distance to the sun

I have been trying
Such a long time
(To) Get my feet back
On the ground

I lost my gravity
Is this how life should be

If I could fly
I'd leave every burden behind
I would
If I could find
A way to the stars
I'd follow them one by one

I have been falling
Through the silence
Always deeper underground
I'm asking questions
But the answers are so clear

And I know
I lost my gravity
Is this how life should be

If I could fly
I'd leave every burden behind
I would
If I could find
A way to the stars
I'd follow them one by one

I'm not who I used to be
I'm fighting the enemy
In me
It seems to be stronger
But not any longer
Is there anyone out there
Who could teach me how to fly

If I could fly
I'd leave every burden behind
I would
If I could find
A way to the stars
I'd follow them one by one

If I could fly
I'd leave every burden behind
I would
If I could find
A way to the stars
I'd follow them one by one

One by one
One by one
