

# Die Happy, Slow Day

There's a traffic jam outside my window  
There's a red light on that just won't change  
The pavement's full of cracks from all the sunshine  
But now they're filling up 'cause the rain is falling down

I'm running round in circles  
Trying to find my way

It's a slow day without you  
It's a slow day when you're not around  
It's a slow day with no escape  
It's a slow day without you

There's a jet-plane up there hanging in the sky  
Just kind of resting his wings on that big white cloud  
Minutes taking on but stretching out forever  
Just like the rooftops out there - they all melt together

I'm running 'round in circles  
Trying to find my way

24 long hours with nothing to do  
24 long hours just hanging on, waiting for you  
It's gonna be a slow day
