

# Die Happy, Violent Dreams

Sun is getting down  
Shadows get bigger  
Mean noises around  
The air tastes bitter

Pictures start to move  
They make bad faces  
Bats are flying 'round  
In fast races

The moon is greeting me  
But I can't see it  
The bad spell is here  
And I sure can feel it

Creatures 'round my bed  
I can hear them mumble  
Their eyes shine red  
And they stumble

I don't wanna die

scare me every night  
against you I will fight  
'till the sun will rise  
I'm living this hell  
violent dreams

and when it's light  
the demons taking flight  
out of mind and sight  
I'm rid of this spell  
violent dreams

Sun is rising up  
Shadows get thinner  
After last night  
I am the winner

This night isn't better  
I don't wanna stay here  
Why should it matter  
My visions are queer

Cold sweat on my skin  
My heart is beating  
Might have been a sin  
'Cause my hands are bleeding

It's been already years  
Since it first happened  
All I have are tears  
And no weapon

I don't wanna die

scare me every night...

Go away bad ghost  
Disappear  
You don't make me feel any fear  
I do not give a damn 'bout you  
What did I do to you?

scare me every night...
