

# Die Melktert Kommissie, Innie Langgras

Innie langgras  
Onder sterre wat skyn  
Het jou woorde verdwyn  
En my hart het  
Saam met krieke se beat  
Heel uitgefreak  
In die moment  
Het ek te veel gepraat  
Jy't jou o toegemaak en stilgebly  
Ek het aanhou stry  
Toe reach jy uit en neem my weg

En nou  
Tel ek alleen die branders  
En jy soek iemand anders  
Met meer tyd wat jou vir ewig vas kan hou  
En ek benodig meer woorde  
Speel vir jou valse akkoorde  
Probeer verduidelik wat ek wil h  
En hoekom ek so min kan s

In die wolke  
Was my mind gewees  
Ek was jonk van gees  
En jou woorde  
Saam met liefde aan my hart gekleef  
En ek wonder of jy nog kan s  
Waar my sproete l  
En sterrekyk maar dis als verby  
Fluit-fluit ons storie is uit

En nou  
Tel ek alleen die branders  
En jy soek iemand anders  
Met meer tyd wat jou vir ewig vas kan hou  
En ek benodig meer woorde  
Speel vir jou valse akkoorde  
Probeer verduidelik wat ek wil h  
En hoekom ek so min kan s

Jy het my gevra  
Of ek jou nog liefhet  
En silence het my oorval  
Toe staan en loop jy net  
Nou wonder ek wat ek mre vir jou sal s  
As jy my by sunflower vra wat ek wil h

Die vriende ding is in jou o 'n clich  
Ek begin weer baie praat  
Toe kyk jy weird na my  
Nou's al jou rose briefies  
Mooi woorde liefies  
Deel van 'n memory  
Totdat ek jou weer sien

En nou  
Tel ek alleen die branders  
En jy soek iemand anders  
Met meer tyd wat jou vir ewig vas kan hou  
En ek benodig meer woorde  
Speel vir jou valse akkoorde  
Probeer verduidelik wat ek wil h  
En hoekom ek so min kan s

==English: In the Tall Grass==

&lt;lyrics&gt;

In the tall grass

Underneath stars that shine

Your words disappeared

And my heart

With the beat of bugs

Freaked out completely

In the moment

I spoke too much

You closed your eyes and said nothing

I kept on arguing

Then you reached out and took me away

And now

I count the waves by my lonesome

And you are searching for someone else

With more time that can grab onto you forever

I need more words

I play false chords to you

Try to explain what I want

And why I can say so little

In the clouds

My mind was

I was young of spirit

And your words

Sticked to my hearth with love

And I wonder if you can still say

Where my freckles are

And watching stars but it's all over

Whistle-whistle our story is over

And now

I count the waves by my lonesome

And you are searching for someone else

With more time that can grab onto you forever

I need more words

I play false chords to you

Try to explain what I want

And why I can say so little

You asked me

If I still love you

And silence overcame me

Then you just stood up and walked away

Now I wonder what I will tell you tomorrow

If you ask me at sunflower what I want

The friends-thing is a cliché to you

I start to speak a lot again

Then you gave me a weird look

Now all the roses are letters

Pretty words little lovely

Part of a memory

Until I see you again

And now

I count the waves by my lonesome

And you are searching for someone else

With more time that can grab onto you forever

I need more words

I play false chords to you

Try to explain what I want

And why I can say so little
