

Die Sektor, Follow The Screams

Cold in here
Death all around
You see my face
My claws are out
Crying now
Your soaked in fear
Gasping as
I cut you ear to ear

I need to know the way
I'm lost tonight
Tearing through my falled prey
I feel the dead inside

Just seconds left of your breathing
I'm getting off while your bleeding
Now your mine to devour
Just seconds left of your breathing
I'm getting off while your bleeding
I know you from the inside out
