

Die Sektor, The Beating Of Broken Wings

I am more pain then you can endure
I am the flaws in everything pure
Can't hide can't hide can't hide what I
Am fast becoming

With numbed emotion
Razorblade incision
With this blade I end all your pain

Shed your illusion
Shed your tortured skin
I can rip away your broken wings

Ripping out of my mouth as a scream
A void staring back at me
I step on your beliefs before they step on me

Shed your illusion
Shed your tortured skin
I can rip away your broken wings

Don't you feel so hollow
Just empty flesh and bone
Broken bruised and brutalized
The scars I leave make you whole

Don't you feel so hollow
Just empty flesh and bone
Broken bruised and brutalized
The scars I leave make you whole

I see heaven in your sunken eyes
You feel hell in every one of my lies
What I need I need I need you can
Never be

With numbed emotion
Razorblade incision
With this blade I end all your pain

Don't you feel so hollow

The scars I leave make you whole

Don't you feel so hollow
Just empty flesh and bone
Broken bruised and brutalized
The scars I leave make you whole

Don't you feel so hollow
Just empty flesh and bone
Broken bruised and brutalized
The scars I leave make you whole

Don't you feel so hollow

The scars I leave make you whole
