

# Die Trying, One Day At A Time

Relationships they sting like  
Bees to butterflies  
You must remember to keep a cautious mind  
It's alright baby just sit there waiting  
It's alright darlin'  
Tell yourself

[Chorus:]  
It's over, It's over, It's over  
It's over, It's over  
Tell yourself  
You got to swallow this down  
You got to make a stand  
You got to take this one day at a time  
As you swear

At times this all seems so hard  
Hit or miss you cry  
You must remember to keep a cautious mind  
It's alright baby just sit there waiting  
It's alright darlin'

[Chorus]  
We'll go our separate ways  
And take it day by day  
When there's nothing left to say

You got a sad song  
I got a sad song too  
My sad song

You got to swallow this down  
You got to take this one day at a time  
As you swear

You got to swallow this down  
You got to take this one day at a time  
As you swear

You got to swallow this down  
You got to take this one day at a time  
As you swear

You got to swallow this down  
You got to take this one day at a time  
As you swear
