Die Trying, One Day At A Time

Relationships they sting like
Bees to butterflies
You must remember to keep a cautious mind
It's alright baby just sit there waiting
It's alright darlin'
Tell yourself

[Chorus:]
It's over, It's over, It's over
It's over, It's over
Tell yourself
You got to swallow this down
You got to make a stand
You got to take this one day at a time
As you swear

At times this all seems so hard
Hit or miss you cry
You must remember to keep a cautious mind
It's alright baby just sit there waiting
It's alright darlin'

[Chorus]

We'll go our separate ways
And take it day by day
When there's nothing left to say

You got a sad song
I got a sad song too
My sad song

You got to swallow this down
You got to take this one day at a time
As you swear

You got to swallow this down
You got to take this one day at a time
As you swear

You got to swallow this down
You got to take this one day at a time
As you swear

You got to swallow this down
You got to take this one day at a time
As you swear
