

# Die Trying, Turn Up The Radio Perfect

I woke up today  
Nothin's changed though nothin's the same  
Look out my window I should have konwn  
Nothin' but clouds nothin' but rain  
Two pots of coffee I'm on my way  
Over worked and I'm under paid

This is my life  
This is who I'm supposed to be  
What happened to my life  
What has happened to me?

\*chorus\*

Turn the world off  
Turn myself on  
Turn up the radio  
Turn up the radio  
Turn the world off  
Turn myself on  
Turn up the radio  
Turn up the radio  
I'm not alone

A thousand faces  
A thousand stories I'll never know  
Freeway's flooded they're on their way  
All dressed up and nowhere to go

This is your life  
This is who you're supposed to be  
Forget about your life  
Let's just forget about everything

\*chorus\*

Turn the world off  
Turn yourself on  
Turn up your radio  
Turn up the radio  
Turn the world off  
Turn yourself on  
Turn up your radio  
Turn up the radio

Just to feel good  
Turn up the radio  
Turn up the radio  
Need to feel good  
Turn up the radio

You'll be alright tonight  
Just turn up and let it go [x2]

just to feel good, to feel good  
turn up your radio

\*chorus\*

Turn the world off  
Turn yourself on  
Turn up your radio  
Turn up the radio  
Turn the world off  
Turn yourself on  
Turn up your radio  
Turn up the radio

just to feel good  
turn up your radio  
turn up your radio  
need to feel good  
turn up and let it go
